CDPH RURR-Memo4ParcelB-lessIR718 received 8.3.2012.pdf
final TMSRA RA.pdf

Lily,

I don't know if this helps you or not but I thought I'd share. For such docs as the RADIOLOGICAL ADDENDUM TO THE TECH MEMORANDUM IN SUPPORT OF ROD AMENDMENT Parcel B, CDPH reviews it and provides comments. When all comments are addressed they send an email saying no further comments. To document this, DTSC writes a memo for the file which is also uploaded to Envirositor as the DTSC approval letter. Attached is an example for the one mentioned. That is how they do it for all SUPRs and FSS reports also. It is not until the RAD RACR is completed that they issue an actual memo for the free release (attached).
